INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

(Chapter I of the Patent Cooperation Treaty)

(PCT Rule 44bis)

Applicant's or agent's file reference FA06-449PCT	FOR FURTHER ACTION	See item 4 below	
International application No. PCT/JP2006/301293	International filing date (day/month/year) 27 January 2006 (27.01.2006)	Priority date (day/month/year) 31 January 2005 (31.01.2005)	
International Patent Classification (8th See relevant information in Form F	•		
Applicant JAPAN SCIENCE AND TECHNOL	OGY AGENCY	_	

1.	This international preliminary report on patentability (Chapter I) is issued by the International Bureau on behalf of the International Searching Authority under Rule 44 $bis.1(a)$.						
2.	This REPORT consists of a total of 4 sheets, including this cover sheet. In the attached sheets, any reference to the written opinion of the International Searching Authority should be read as a reference to the international preliminary report on patentability (Chapter I) instead.						
3.	This report contains indications relating to the following items:						
	Box No. I	Basis of the report					
	Box No. II	Priority					
	Box No. III	Non-establishment of opinion with regard to novelty, inventive step and industrial applicability					
	Box No. IV	Lack of unity of invention					
	Box No. V	Reasoned statement under Article 35(2) with regard to novelty, inventive step or inclustrial applicability; citations and explanations supporting such statement					
	Box No. VI	Certain documents cited					
	Box No. VII	Certain defects in the international application					
	Box No. VIII	Certain observations on the international application					
4.	The International Bureau will communicate this report to designated Offices in accordance with Rules 44bis.3(c) and 93bis.1 but not, except where the applicant makes an express request under Article 23(2), before the expiration of 30 months from the priority date (Rule 44bis.2).						

Date of issuance of this report
31 July 2007 (31.07.2007)

The International Bureau of WIPO

WRITTEN OPINION OF THE INTERNATIONAL SEARCHING AUTHORITY

International application No. PCT/JP2006/301293

Во	x No. 1 Basis of this opinion
1.	With regard to the language, this opinion has been established on the basis of:
	the international application in the language in which it was filed
	the translation of the international application into, which is the language of a
	translation furnished for the purposes of international search (Rule 12.3(a) and 23.1(b)).
2	With regard to any nucleotide and/or amino neld sequence disclosed in the international application and necessary to the claimed invention, this opinion has been established on the basis of:
	a. type of material
	a sequence listing
	table(s) related to the sequence listing
	b. format of material
	on paper
	in electronic form
	c. time of filing/furnishing
	contained in the international application as filed
	filed together with the international application in electronic form
	furnished subsequently to this Authority for the purposes of search
3.	In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filled or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filled or does not go beyond the application as filed, as appropriate, were furnished.
4.	Additional comments:

WRITTEN OPINION OF THE INTERNATIONAL SKARCHING AUTHORITY

International application No. PCT/JP2006/301293

Box	c No. V			ale 43bis.1(a)(i) with regard to novelty, inventive step or industrial applicability; apporting such statement	
1.	Statement				
	Novelty	(N)	Claims	1-5	YES
			Claims		NO.
	Inventive	e step (IS)	Claims	1-5	YES
			Claims		NO
Industrial applicability (IA)		Claims	1-5	YES	
			Claims		NO

2. Citations and explanations:

Document 1: S. ISHIKAWA et al., J. Am. Chem. Soc., 2004, Vol. 126, No. 39, pages 12236 and 12237
Document 2: K. MANABE et al., Tetrahedron, 2003, Vol. 59, pages 10439-10444
Document 3: JP, 2001-252570, A (Japan Science and Technology Corp.), 18 September, 2001 (18.09.01)

The documents shown above were cited in the ISR.

The subject matters of claims 1-5 appear to be novel and to involve an inventive step in view of documents 1-3.

Documents 1-3 describe neither the manufacturing method of optically-active hydroxymethylated compounds, wherein a silicon enolate is reacted with formaldehyde in either an aqueous solution or a mixed solvent of water and an organic solvent in the presence of a catalyst obtained by mixing a ligand consisting of a chiral bipyridine or an antipode thereof with a Lewis acid represented as BiY_3 (where, Y is a halogen atom, OAc, OCOCF₃, ClO₄, SbF_6 , PF_6 or OSO_2CF_3), nor the above-mentioned catalyst itself.
